In Bethlehem and Lagos, I updated the clothing industry as well. The clothing industry in Bethlehem was located at the bottom part of steps where crusification ceremonies are held. The same location where a lady tore the clothes that Jesus was wearing at the top of the stairs and as you descend, on the left side of the bottom was the clothing industry. I saw a young man probably the Jesus that they talked about requested for a replacement of his clothing. I was incharge of the business at this time and his clothes were replaced. I revisited the location in 1981. It was there that I received my current names. Festus for Judge, Okwudili for Adjudged and Ohanu/Ohan for this People or People to Hear. It was the Main Court that prepared me after I testified what I heard and what I saw as a little child then. The State of California deprived me of my funds, kept me homeless, tried to kill me and even followed me to the state of Washington where they tried to shoot me as they failed in court to default me. They had the IRS and the franchise tax board to go after me in Alaska eventhough I was not working and when I got well anough to work, all I was allowed to have was a substitute teaching job. They were offsetting my mails and cashing out my financial instruments at the same token ensuring that I am homeless and can not keep records. I am using the numbers to my credentials that they stole to operate. They did not know that I remembered those numbers. I have gone through the US Supreme Court group and others and the cases have been assigned to specialized judges by group of judges. This is global for I gone through the European Court of Justice, European Community Court, Royal Court of Justice, World Court and now concluding it all with all the above courts here in Alaska. I am the only lawyer to all those cases. I met with 18 judges for the World Court for humans and 18 judges for Naturals in February of 1994 in England . Without saying a word we have seen ourselves and they have seen damages to my body. In prison Court in Washington, our pictures were electronically transmitted to them. They kept me homeless at this time and I needed to come to Alaska where I could manage to work and rest well anough to complete Court work.

In Nigeria, they especially Remigius Onwuzurike Duru Agwushi aka Ohanu tried their best to kill me and ensured that I suffered. I owned the business that Remigius took. He tried to kill and inherit the money that I used for Catapilers. I then used the money to purchase a 300 acres property yet he ran after me. His mother Rosaline confessed that Remigius was providing poisons that they were putting in my food. He all nothing but we evil and yet to repay the money spent training him to 2 masters credentials programs from absolutely nothing. Just like Rose Ngozi Emegwa, he was at 4th grade level when he came to California without a cent and no clothes. They packaged him and sent to California. I could have trashed him.

I wish I was notified about this earlier were you at least at a hotel, motel or shelter during most of these days. In Hawaii during the summer I had unpaid rent. All my money left my bank account because of previous rent plus my deposit was hearing uncontrollable voices and dealing with something mentally strange. Thankfully Fes sent me money for food and those two months were uncontracted. I then got better before school started, found a room rental and little job at the FASFA office. A few months later I had to leave the job, found my way around it again and moved into on campus housing. I was dealing with issues too but I always found ways around it. Yes, these weird followers want us homeless like Jesus supposably was and need to worry about their own lives and their people. It is probably people met through foster care, school, work, church or many other places that need to go. I had strange roommates, rental situations, and rent not paid where I definitely needed to be living alone. I was strongly advised to do so but I chose my cheepest affordable choice at the time and did not listen. Yes, these days it is important to be careful! All I am saying is from now we shall think smart and find ways around homelessness because some people can be sceptical. Yes, it does seem like something weird is following that has to go. Also, yes I should have listened to you when you informed me to not leave the country! When arriving in Alaska you had shelter right???- Ada Ohan

For how long actually out? Before you mentioned motels, jail for strange incidents while you were mentally ill, and a shelter in Alaska. You have told me this has happened once by the bushes then you found assistance or figured out something...

I wish I was notified about this earlier were you at least at a hotel, motel or shelter during most of these days. In Hawaii during the summer I had unpaid rent. All my money left my bank account because of previous rent plus my deposit was hearing uncontrollable voices and dealing with something mentally strange. Thankfully Fes sent me money for food and those two months were uncontracted. I then got better before school started, found a room rental and little job at the FASFA office. A few months later I had to leave the job, found my way around it again and moved into on campus housing. I was dealing with issues too but I always found ways around it. The State of California deprived me of my funds, kept me homeless, tried to kill me and even followed me to the state of Washington where they tried to shoot me as they failed in court to default me. They had the IRS and the franchise tax board to go after me in Alaska eventhough I was not working and when I got well anough to work, all I was allowed to have was a substitute teaching job. They were offsetting my mails and cashing out my financial instruments at the same token ensuring that I am homeless and can not keep records. I am using the numbers to my credentials that they stole to operate. They did not know that I remembered those numbers. I have gone through the US Supreme Court group and others and the cases have been assigned to specialized judges by group of judges. This is global for I gone through the European Court of Justice, European Community Court, Royal Court of Justice, World Court and now concluding it all with all the above courts here in Alaska. I am the only lawyer to all those cases. I met with 18 judges for the World Court for humans and 18 judges for Naturals in February of 1994 in England to Mithout saying a word we have seen ourselves and they have seen damages to my body. In prison Court in Washington, our pictures were electronically transmitted to them. They kept me homeless at this time and I needed to come to Alaska where I could manage to work and rest well anough to complete Court work.

Ada! I was not named as a father of any of you 3 because I was not your father. I did not sign your birth certificates eventhough Rose Ngozi Emegwa was living with me as she tried to complete her career in nursing. Others with her signed your birth certificates. I did not kick her out of my house because her group was very vicious. The only reason for taking pictures was only because her family was excluded eventhough they were around. I can not lower myself by marring a created not to mention the level of Rose Ngozi Emegwa. I was forced to allow her around even with pregnancies and having offsprings. During each pregnancy, both periumblical blood samples and umbilical fluids were taken for genetic tests. She had to submit or gets kicked out of my home. Upon receiving her certificates, she left you guys and ran. You see she shoped from one lawyer to another for spousal support but they couldn't help her because I am unmarried. Her owners will pay for all of that. You were all emancipated when you passed High School Stanford 9, Judith 6, Ada 8 and Guzo 9. You were ranked gifted and were to enter university. For some reasons, blacks psychologist helped you guys to remain in my home to continue with your careers. So you continued with Sanford 9/ CAT6/ X. You were to attend the University of Missouri or UCLA for PhD in Mathematics followed by MD and Surgery. It is not your right to petition for any reason for I am the only victim. I was still sharing the little that I had after you guys left my home and Judith was still with me. You were not fostered for I was still around in the program while waiting for your owners/families to come and claim you guys. The transitions have to be smooth. They were using you guys to continue inheriting me alive. [Outed text hidden]
